December 2024

**RFP for:**  
**Water & Sewer Service – Installations and Repairs**  
**and**  
**Water & Sewer Main – Repairs**  
**(2025 Contract)**

**INTRODUCTION**

Livingston County Water & Sewer Authority (LCWSA) is soliciting proposals from qualified contractors to perform the following work:

- **Sewer Service Installations** – Approximately four (4) sewer service installations including taps, per year.
- **Sewer Service Repairs** – Approximately two (2) sewer services to be repaired, per year.
- **Water Service Installations**
- **Water & Sewer Main Repairs, including Emergency Repairs** – Approximately two (2) – five (5) mainline repairs, including emergency repairs, per year.
- **Surface Restoration including Paving.**

If you wish to undertake any part of this work for the LCWSA in 2025, a proposal must be submitted. It is understood that a contractor may choose not to provide a proposal for some parts of the work; however, if a contractor elects to participate in any portion of the work for 2025, a proposal must be submitted for that part of the work.

**AWARD**

To maximize flexibility and ensure that work is completed in a timely manner, LCWSA intends to compile a list of multiple contractors who are willing to complete the above referenced work. This information will be presented in matrix format, based on the price proposals submitted by the various contractors.

For **Water & Sewer Service Installations**, LCWSA will email the contractor with the lowest bid based on location (e.g., State Right-of-Way, Town Road, etc.), service size, and scope of work (short side or long side), to verify if they are interested in completing the specific work. If the contractor is interested in completing the work, they will need to respond within 24 hours. If there is no response, LCWSA will proceed with contacting the second low bidder, etc.

For **Water & Sewer Service Repairs** and **Water & Sewer Main Repairs**, the same process as described above will be followed, except LCWSA will contact the lowest bidder by phone and the contractor will need to respond within 4 hours if they are interested in performing the work.

By submitting a price proposal, The Contractor is committing to hold his/her pricing until December 31, 2025. Prior to December 1, 2025, LCWSA may contact all Contractors to offer the option of extending the term of the contract for one (1) additional year (to December 31, 2026) at the same pricing submitted for the 2025 contract. Contractors are not obligated to hold their pricing beyond December 31, 2025.

## SECTION 2.0 SCOPE OF WORK

### **Water Service Installation or Repair**

*(See Exhibit A for the standard specifications/detail for a water service)*

All water service installations are wet taps and require equipment to “tap” into water main for ¾ inch, 1 inch or 2-inch services. Larger taps are considered specialty work and will be coordinated outside of this proposal. Water service repairs may require water to be turned off.

### **Sewer Service Installation or Repair**

*(See Exhibit B for the standard specifications/detail for a sewer service)*

If a repair is done on sewer service that does not have a clean out, a clean out must be installed.

### **Water Main Repair**

Water main repairs are the water mains, valves, hydrants, blowoffs, or other appurtenance on the water main. This work does not include mechanical or electrical work within the system and is considered different than water service repairs. If the Contractor requires the water to be turned off, the contractor will have to contact the LCWSA, and staff will turn off the water. If water service is turned off to complete work, Contractor must be prepared to complete the work within four hours or a “boil water notice” will have to be issued for the area. The LCWSA will assist the contractor with the distribution of notices, if necessary.

### **Sewer Main Repair**

Sewer main repairs are gravity, force main pipelines and manholes within the sewer system. This work does not include mechanical or electrical work within the system or sewer service repairs. For force main repairs, the contractor may be required to set up a sewer bypass system to pump waste to the next nearest gravity manhole or plan for sewage to be moved around the sewer pump station so that the repair can be made.

**SECTION 3.0 MATERIALS**

For **Water and Sewer Service Installations**, the Contractor shall furnish all materials necessary to complete the work, in accordance with LCWSA material specifications provided below. The cost of these materials shall be included in the Contractor’s price proposal sheets for:

- Water Service – Installations (Short Side & Long Side, ¾”, 1”, and 2”)

The Contractor will provide emergency repairs on water and sewer services in the LCWSA service area. Services are defined by Exhibits A and B. Contractor is responsible for contacting UFPO. An emergency repair must be started when UFPO has cleared all other utilities. Water service emergencies normally do not require the water to be turned off, but they may, depending on the situation. The LCWSA will operate all valves for the contractor as necessary.

**Emergency\* Water and Sewer Main Repairs**

*(After emergency utility stake-out request is made, work shall be completed within 24 hours)*

The Contractor will provide emergency repairs to water and sewer mains in the LCWSA service area. Contractor is responsible for contacting UFPO. For force main repairs, the contractor may be required to set up a sewer bypass system to pump waste to the next nearest gravity manhole or plan for sewage to be moved around the sewer pump station so that the repair can be made.

***\*In Price Proposal sheets, Contractor shall include a cost per hour, to be added as a "surcharge" for those repairs that are designated as "emergency" repairs\****

The word “Contractor” herein refers to any party to the contract, other than the Livingston County Water & Sewer Authority (herein after “Authority”).

1. **NON-ASSIGNMENT CLAUSE.** In accordance with Section 109 of the **General Municipal Law**, this contract may not be assigned by the contractor or its right, title or interest there in assigned, transferred, conveyed, sublet or otherwise disposed of without the previous consent, in writing, of the Authority and any attempts to assign the contract without the Authority's written consent are null and void.

3. **NON-DISCRIMINATION REQUIREMENTS.** In accordance with Article 15 of the **Executive Law** (also known as the **Human Rights Law**) and all other State and Federal statutory and constitutional non-discrimination provisions, the Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, sex, national origin, age, disability or marital status. Furthermore, in accordance with Section 220-e of the **Labor Law**, if this is a contract for the construction, alteration or repair of any public building or public work or for the manufacture, sale or distribution of materials, equipment or supplies, and to the extent that this contract shall be performed within the State of New York, Contractor agrees that neither it nor its subcontractors shall, by reason of race, creed, color, disability, sex or national origin: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this contract. **COMPLIANCE WITH  
NYS STATE FINANCE LAW §§139-j AND 139-k**

**NEW YORK STATE'S STATE FINANCE LAW SECTIONS 139-J AND 139-K**

All procurements by the Authority in excess of \$15,000 annually, are subject to New York State's State Finance Law Sections 139-j and 139-k ("Lobbying Law").

Pursuant to the Lobbying Law, all "contacts" (defined as any oral, written or electronic communications with the Authority under circumstances where a reasonable person would infer that the communication was intended to influence the Authority's conduct or decision regarding a procurement) during the "restricted period" of procurement (defined as the period of time commencing with written notice advertisement or solicitation of a request for proposal, invitation for bids or solicitation of proposals and ending with the final contract award and approval by the Authority) must be made with the Designated Point of Contact only. Exceptions to this rule include:

- Submission of written proposals in response to a request for proposals, invitations for bids or any other method for soliciting a response from offerers intending to result in a procurement contract;
- Submission of written questions (by a method set forth in the request for proposals, invitation to bid or other method for soliciting a response from offerers intending to result in a procurement contract), when all written questions and responses are to be disseminated to all offerers who have expressed an interest in the request for proposals, invitation for bids, or other method for soliciting a response from offerers intending to result in a procurement contract;
- Participation in a demonstration, conference or other means for exchange of information in a setting open to all potential bidders (as provided for in the request for proposals, invitation for bids, or other method for soliciting a response from offerers intending to result in a procurement contract);
- Complaints by an offerer regarding the failure of the person or persons designated by the Authority pursuant to NYS Finance Law Section 139-j, to respond in a timely manner to authorized offerer contacts, made in writing to the office of general counsel of the Authority, provided that any such written complaints shall become a part of the procurement record;
- Offerers who have been tentatively awarded a contract and are engaged in communications with the Authority solely for the purpose of negotiating the terms of the procurement contract after being notified of tentative award;
- Contacts between designated Authority staff and an offerer to request the review of a procurement contract award;
- Contacts by offerers in protests, appeals or other review proceedings (including the apparent successful bidder or proposer and his or her representatives) before the Authority seeking a final administrative determination, or in a subsequent judicial proceeding; or

- Complaints of alleged improper conduct by the Authority to the Attorney General, Inspector General, District Attorney, or court of competent jurisdiction; or
- Protests, appeals or complaints to the State Comptroller's Office during the process of contract approval, where the State Comptroller's approval is required, provided that the State Comptroller shall make a record of such communications and any response thereto which shall be entered into the procurement record pursuant to section one hundred sixty-three of the NYS Finance Law; or
- Complaints of alleged improper conduct in a governmental procurement conducted by the Authority to the State Comptroller's Office;
- Communications between offerers and the Authority that solely address the determination of responsibility by the Authority of an offerer;
- Complaints by minority-owned business enterprises or women-owned business enterprises, certified as such by the Division of Minority and Women's Business Development, to the Minority and Women-Owned Business Enterprise Statewide Advocate concerning the Authority's failure to comply with the requirements of section three hundred fifteen of the NYS Executive Law;
- Communications between the Minority and Women-Owned Business Enterprise Statewide Advocate and the Authority in furtherance of an investigation of the Minority and Women-Owned Business Enterprise Statewide Advocate pursuant to section three hundred twelve-a of the NYS Executive Law;
- Communications between the Authority and offerers that provide information to offerers regarding the status of the review, oversight, or approval of a procurement that has been submitted to or is under review by the Authority.

No offerer shall attempt to influence the Authority procurement in a manner that would result in a violation or an attempted violation of subdivision five of section seventy-three or section seventy-four of the NYS Public Officers Law, or of other applicable ethics code provisions that are equivalent to subdivision five of section seventy-three or section seventy-four of the NYS Public Officers Law where the public officials that are involved in the governmental procurement are not subject to subdivision five of section seventy-three or section seventy-four of the NYS Public Officers Law.

Violations of contact restrictions shall include any contacts during the restricted period of a governmental procurement between the offerer and any member, officer or employee of any governmental entity other than the Authority; provided, however, that nothing herein shall be deemed to prohibit an offerer from communicating with a member of the state legislature or legislative staff about a governmental procurement being conducted by the Authority, provided that the member of the state legislature or legislative staff is acting in his or her official capacity.

Alleged violations of this policy regarding permissible contacts must be reported to the appropriate Authority officer and investigated immediately. If sufficient cause exists to believe that such allegation is true, the investigating Authority officer shall give the offerer reasonable notice that an investigation is ongoing and an opportunity to be heard in response to the allegation.

A finding that an offerer has knowingly and willfully violated the provisions of New York State's State Finance Law Sections 139-j and/or 139-k shall result in a determination of non-responsibility for such offerer, and such offerer and its subsidiaries, and any related or successor entity with substantially similar function, management, board of directors, officers and shareholders (hereinafter, for the purposes of this paragraph "offerer"), shall not be awarded the procurement contract, unless the Authority finds that the award of the procurement contract to the offerer is necessary to protect public property or public health or safety, and that the offerer is the only source capable of supplying the required article of procurement within the necessary timeframe, provided, that the Authority shall include in the procurement record a statement describing the basis for such a finding.

Any subsequent determination of non-responsibility due to violation of these requirements within four years of a determination of non-responsibility resulting from a previous violation of the requirements of New York State Finance Law section 139-j or 139-k shall result in the offerer being rendered ineligible to submit a proposal on or be awarded any procurement contract for a period of four years from the date of the second final determination.

All offerers are required to disclose any prior findings of non-responsibility due to violations of York State's State Finance Law Sections 139-j and/or 139-k within the previous four years by any governmental entity (other than the Authority). The failure of offerers to timely disclose accurate and complete information or otherwise cooperate with the Authority in administering this provision shall be considered by the Authority in its determination of responsibility; provided, further, that the Authority shall not award a contract to an offerer who fails to timely disclose accurate and complete information or otherwise cooperate with the Authority in administering this provision unless it finds that the award of the procurement contract to the offerer is necessary to protect public property or public health or safety, and that the offerer is the only source capable of supplying the required article of procurement within the necessary timeframe, provided, that the Authority shall include in the procurement record a statement describing the basis for such a finding.

Upon a determination of non-responsibility or debarment due to a violation of these provisions, the Authority is required to notify the Office of General Services, which maintains a list of all offerers who have been determined to be non-responsible bidders or debarred due to violations of the requirements of York State's State Finance Law Sections 139-j and/or 139-k.

Moreover, the statutes require the Authority to obtain certain affirmation and certifications from bidders and proposers. This **SCHEDULE** contains the forms to comply, with additional information and instructions.
